2nd August 1955] [Sri G. Krishnamoorthi]

" Finally I conclude by saying that the Government would do well to adopt the basic system of education with the shift system in elementary schools and introduce the basic system of education within the next school-year so that we may just have a number of multi-purpose schools and industrial colleges to achieve the economic freedom of our country.

" Lastly I have to add only two sentences in the matter of the health and the safety of our children. With regard to the health of our children, I would say that the Health Minister, as I have already requested him in this House, should ban the use of cups and plates in hotels and substitute them with paper cups and leaves. With regard to the physical training classes that are conducted in the various schools, I have to point out that in all schools classes are conducted between 11 a.m. and 3 p.m. for want of playground or for want of sufficient number of periods for physical training. The Director of Public Instruction should immediately issue a circular to all schools saying that physical training classes between 11 a.m. and 3 p.m. would be detrimental to the health of the nation which ought to train men to become soldiers for preserving the hard won freedom.

" Lastly I want to say a word about traffic in Tiruchirappalli. We had some very nasty incidents from lorries and buses. Children have been affected. I would implore the Government to see that buses and lorries are not allowed to ply on roads which have no pavements for pedestrians, that traffic islands are suitably created, and that boards marked ' Halt ' are put up at important places so that these fast moving vehicles will be forced to stop irrespective of the presence or absence of the policeman there.

" With these words, Sir, I conclude. I thank you for the opportunity so kindly given to me."

MR. CHAIRMAN :—" I now adjourn the House till 4 p.m. tomorrow."

The House then adjourned.
